DISINFECTING DONE RIGHT

EFASCIDE kills Human Coronavirus and is effective at killing SARS-CoV-2 (the virus that causes COVID-19) in only 55 seconds dwell time according to latest studies.

Conscientious cleaning and disinfecting of your work space is a choice you can now make without compromising the well being of your environment, the people who interact with it, or the disinfecting power to kill harmful pathogens.

NO CHLORINE
NO BLEACH
NO AMMONIAS
NO PHOSPHATES

Clean, deodorize, sanitize and disinfect in a single cost effective step using a patented biodegradable, nontoxic,

noncorrosive botanically derived active ingredient that is registered with Health Canada and the EPA. Electrostatic spraying ensures a 360° wrap of all surfaces with disinfecting solution for maximum biosecurity. Malevolent micro-organisms pose a real threat to human

health, as can the chemicals we use to kill them. Nontoxic EFASCIDE is a broad spectrum, ecofriendly disinfectant that your clients, customers, and employees alike will all agree is the environmentally right choice for biosecurity in the age of COVID-19.

- Kills 99.99 percent of viruses in one minute.
- Kills 99.99 percent of bacteria in two minutes.
- Kills 99.99 percent of fungi and molds in three minutes.
